PROFILE

Full-stack developer focused on practical, workflow-centered software. Experienced in building web applications, relational data systems, responsive interfaces, and project integrations, with a parallel background in visual storytelling and creative production. Interested in continuing advanced study in information technology and teaching while building useful real-world systems.

EDUCATION

Bachelor of Science in Information Technology

Asian College of Science and Technology - Dumaguete City

Class of 2026

Dumaguete City

SELECTED PROJECTS

DAR-LTCMS

Lead / Integrator / Full-stack | Laravel 12, PHP, PostgreSQL, Blade, JavaScript

Land Transfer Clearance and Monitoring System for the Department of Agrarian Reform - Negros Oriental. Supports records, applications, role-based workflows, document review, mapping, reporting, audit trails, and clearance output generation.

PERIPHORA

Individual mobile UI project | Flutter, Dart

E-commerce mobile application for tech peripherals featuring animated product browsing, product detail interactions, cart/checkout flows, reusable widgets, and a dark visual system.

FLUTTER TO-DO

Individual mobile app | Flutter, Dart

Task-management application with add/manage actions, slide-to-delete interaction, and a UI themed around Asian College branding.
